

Drinks dispense systems

Liquid mixed gas system

CO₂

Features/benefits

- A tailor-made system to meet your specific cellar and safety needs.
- Suitable for drinks dispense in medium/high volume outlets.
- Equipment provides all your gas needs for drinks dispense and line cleaning.
- CarboStore can be sited internally or externally.
- CarboStore refilled on site, either direct to tank or via remote fill point.
- Backup cylinders and CO₂ monitor installed for added security.
- Fixed connections reduce the risk of connecting incorrect cylinder.

N₂

The ultimate solution for high volume or event led outlets.

“We take away all your cellar gas hassle and free your time to serve customers . . . and make you more money”.

Saves time—no more cylinder handling or changing—especially during busy sessions.

Saves money—only pay for the CO₂ and nitrogen you use.

Saves space—tanks can be sited conveniently to relieve valuable cellar space.

Saves administration—fixed monthly fee tailored to suit, means billing and budgeting is easy.

Saves saleable product—constant pressure levels means that fobbing can be significantly reduced.

Safety built in—no more handling cylinders means less chance of injury to you and your staff. CO₂ monitors and other safety equipment can be supplied.

Fit and forget system—the system is designed to need virtually no input from you or your staff.

Peace of mind—our Gas Management system automatically schedules regular deliveries, saving you the hassle of chasing orders or waiting for deliveries.
